## **Watertown Electricity Choice** **Notification**

Watertown Electricity Choice, the Town's electricity aggregation program, has launched, and residents are receiving the benefits of price stability, increased renewable energy and the potential of savings.

By State Law Watertown Electricity Choice is an automatic enrollment program, and no action needs to be taken to participate. If you have recently received a letter, email, phone call, or text that requires you to take an action, it is not from the Town, and it does not pertain to Watertown Electricity Choice.

We have been made aware of two situations where residents have been contacted by other companies:

- 1) You may get mail, or a door-to-door solicitation, from various companies regarding your electricity supply. These are not associated with Watertown Electricity Choice.
- 2) If you receive a text message that appears to be from our electricity supplier, Direct Energy, it is a scam. Text messages are not associated with Watertown Electricity Choice, or Direct Energy, and should be deleted. In any case you should never click on any link that is unknown to you. This has been reported to the Attorney General / law enforcement officials as a scam.

For more information about any aspect of Watertown Electricity Choice, visit website [WatertownChoice.com](http://WatertownChoice.com) or contact the Town's program consultants at 1-844-278-9864 or [support@watertownchoice.com](mailto:support@watertownchoice.com).

If you are unsure of the source of any communication, look for the Town seal. All Town communications regarding Watertown Electricity Choice will always include the Watertown Town seal.

Edward Lewis, CEM  
Energy / Project Manager  
Town of Watertown, MA
