TOWN OF SHARON

TOWN ELECTRICITY AGGREGATION PROGRAM NOTIFICATION LETTER

January 6, 2021

Dear Sharon Electricity Service Customer,

I am writing to tell you about the launch of an exciting new Town electricity program: **Sharon Power Choice**. This program will increase the amount of renewable energy in your electricity by 20%. The program also includes options that allow you to choose more or less additional renewable electricity.

If you received this letter and you do nothing, you will be AUTOMATICALLY enrolled in the Sharon Power Choice program with your March 2021 meter read.

Your opt-out request must be postmarked by February 8, 2021 to avoid automatic enrollment in the program.

If you do not opt out, you will be enrolled in Power Choice Standard at a price of 11.586 ¢/kWh, and you will receive 20% additional renewable electricity.

Sharon Power Choice is a form of group electricity purchasing known as electricity aggregation. In the program, the Town uses the bulk purchasing power of the community to increase the amount of renewable energy in the community's electricity supply and secure a stable electricity price. Participating in the program will change your electricity supplier and the price used to calculate the Supply charge portion of your National Grid electricity bill.

Sharon has signed a 34-month contract with Constellation. They will supply the town with electricity that includes 20% additional renewable electricity. You may also choose to receive 100% renewable electricity or just the minimum amount required by Massachusetts law. Please see the back of this letter for options and pricing information.

The program price is fixed until January 2024. This price stability makes the program different from National Grid's Basic Service, which you have now. With National Grid's Basic Service, the price used to calculate the Supply portion of your National Grid bill changes every 6 months (for residential and commercial accounts) or 3 months (for industrial accounts). Price stability also makes the program different from many commercial offers that you may receive by mail or by phone. NOTE: There is no guarantee of savings over the term of the contract with Constellation compared with National Grid's Basic Service price.

Your Relationship with National Grid

- ▶ If you participate in Sharon Power Choice, National Grid will remain your electric utility. You will continue to receive your electricity bill from them and call them if the power goes out. But you will see Constellation listed on the Supply portion of your National Grid bill, and the program price will be used to calculate the Supply charges on your bill.
- ▶ If you do not participate in Sharon Power Choice, the Supply charges on your National Grid bill will continue to be calculated using National Grid's Basic Service price.

If you are eligible for a low-income delivery rate or fuel assistance, you will continue to receive those benefits as a participant in the Sharon Power Choice program.

* Program prices include a \$0.001/kWh administration fee and a \$0.001/kWh operational fee to support Town energy staff. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electric supply agreement.

** National Grid's fixed Basic Service prices change every 6 months for residential and small business accounts and every 3 months for large business accounts. They will next change on May 1, 2021, for residential, commercial, and industrial accounts.

*** Exit terms for National Grid's Basic Service: No penalty charge. However, industrial customers only (rates G-2 and G-3) on the fixed price Basic Service option may receive a billing adjustment, which may be either a credit or a charge.

Important

If you have already signed a contract with an electricity supplier: If you received this letter *and also* you have an electricity supply contract that you wish to retain, you *must* opt out of this program. If you do not opt out, your current electricity supply contract may be cancelled, and you may be charged an early termination fee by your existing electricity supplier.

If your organization is tax exempt: Taxes will be billed as part of the program's power supply charge. Customers are responsible for identifying and requesting an exemption from the collection of any tax by providing appropriate tax exemption documentation to Constellation. Visit SharonPowerChoice.com for information on where to submit your documentation.

More information about the program is available at SharonPowerChoice.com. If you have any additional questions, please do not hesitate to contact customer support at support@sharonpowerchoice.com or 1-855-854-7498. Our Town consultants will be happy to help you.
