# An important message from the Town of Nantucket about a change in your electricity price

October 4, 2024

You are currently enrolled in Nantucket PowerChoice, the Town's group electricity purchasing program. This program provides a competitive Nantucket-based price for the electricity supply portion of your National Grid bill.

In November, the current electricity supply contract for Nantucket PowerChoice will expire, and a new contract will begin, bringing new pricing and two years of price stability.

However, electricity market prices are higher now than they were in 2021, when the current prices were set. As a result, you will see an increase in Nantucket PowerChoice prices when the new contract takes effect.

- Your electricity supply price will change to **13.967 ¢/kWh**.
- Your new price provides a **13% savings** compared with National Grid's residential price, is lower than National Grid's commercial price, and includes unique community benefits. (See other side for details.)

*Because National Grid's prices change and future prices are unknown, future savings compared with National Grid cannot be guaranteed.*

- Your electricity supplier will remain First Point Power, as it is now.

Your new electricity supply price:

**13.967 ¢/kWh**

Look for it on your December bill.

For account:

Customer Support:

**1-844-241-8598**

More information and self service:

**NantucketPower.org**

## It's your decision. Make the choice that's right for you.

- TAKE NO ACTION.** Your enrollment in Nantucket PowerChoice will renew automatically at 13.967 ¢/kWh in November, and you will see the new price on your December National Grid electric bill.
- GO GREEN!** Opt into the PowerChoice Green option and receive 100% of your electricity from local and regional MA Class I renewable sources.
- OPT OUT.** Participation is not required. There is no fee or penalty to opt out of Nantucket PowerChoice, and you may do so at any time. If you opt out, you will be returned to National Grid's Basic Service price within one to two billing cycles.

Your account is enrolled here.

| <b>Price period</b>   | November 2021 - November 2024 | November 2024 - November 2026 | August 1, 2024 - January 31, 2025, residential and commercial.<br>August 1, 2024 - October 31, 2024, industrial. |
| <b>Renewable energy content (% of total), required by state law</b>               |                               |                               |  |
| From new renewable sources in the New England region (MA Class I RECs)            | 24%                           | 24%                           | 24%  |
| From other clean or renewable sources (other RECs)*                               | 38%                           | 38%                           | 38%  |
| <b>Total</b>  | <b>62%</b>                    | <b>62%</b>                    | <b>62%</b>   |

\* State law requires all electricity suppliers to purchase Renewable Energy Certificates (RECs) from other sources, including sources that are not new, are renewable but not clean, such as waste to energy, or are clean but not renewable, such as nuclear.

### Additional information:

- Nantucket’s municipal aggregation was unanimously approved** at the 2016 Annual Town Meeting (Article 104) as a way to help the local community to save money and protect against dramatic seasonal price swings that have been difficult to predict and challenging for many to manage. Since program launch, Nantucket residents and businesses have received **more than \$32 million in savings** to date compared with National Grid’s prices, though future savings cannot be guaranteed.
- Your participation advances Nantucket’s sustainability through local renewable energy investments.**

Nantucket PowerChoice directly supports the **Nantucket Local SOLAR Rebate Program**, which provides up to \$6,000 to program participants who install solar on their primary Nantucket properties. To date, the program has awarded \$591,029 to local residents, supporting 131 solar projects generating 1,157 kW of local solar power.

Additionally, our program has purchased 1,272 RECs (the equivalent of 1,272 megawatt-hours [MWh] of electricity) generated by the **Nantucket High School wind turbine**, greening our electricity supply and contributing \$36,695 directly to Nantucket Public Schools.
- Your electricity supplier will remain First Point Power, which has consistently provided excellent customer service to our community.** While “First Point Power - Nantucket PowerChoice” will appear on the supply portion of your bill, your primary relationship for electricity services remains with National Grid. You will continue to contact them for any power outages or bill-related questions. National Grid will also continue to send your electric bill, which will remain the only electric bill you receive as a participant in Nantucket PowerChoice.
