

## 2023 Annual Report for the Greenfield Light & Power Program

For calendar year 2023, the City of Greenfield submitted the following Annual Report to the Massachusetts Department of Public Utilities (DPU) for the Greenfield Light & Power Program.

The content of the Annual Report is stipulated by the DPU and is comprised of the following attachments:

- **Attachment III.C: Public Access** - Illustrates how the City of Greenfield provided access to program information during the year.
- **Attachment IV.A: Organizational Structure** - Shows how program administration responsibilities are divided between the City, the City's aggregation consultant, and the program's electricity supplier.
- **Attachment IV.B.1.c: Equitable Treatment of Customer Classes** - Describes any variances in treatment between customer classes.
- **Attachment IV.B.2: Procurement of Supply** - Presents the timeline of any electricity supply procurement undertaken during the year.
- **Attachment IV.B.6.a: Representative Opt-Out Notification** - Provides a representative Opt-Out Notification (automatic enrollment notification) from the calendar year. The Opt-Out Notification is sent by mail to new electricity account holders in Greenfield to notify them of their eligibility for automatic enrollment in the program.
- **Attachment IV.B.6.b: Representative Notice of Product Change** - Provides a representative notice of a product change, if such a notice was issued during the year.
- **Attachment IV.B.7.b.i: Annual Product Information** - For each program option, provides details around price components, renewable energy content, and average number of accounts enrolled. Also provides the electricity supplier name and electricity supply contract price term.
- **Attachment IV.B.7.b.ii: Annual Product Rate Component Information** - Includes the total revenue for each rate component for the year.

Attachment III.C Public Access

<b>Table III.C - Public Access to Plan/Ongoing Program Information</b>	
<b>Location</b>	<b>Description</b>
<b>Municipal website</b>	Access to the Plan and detailed program information was provided through a link to the program website.  Program announcements were posted on the home page.
<b>Program website</b>	The program website ( <a href="http://GreenfieldLightAndPower.com">GreenfieldLightAndPower.com</a> ) provided access to the Plan and other program documents, detailed product information, and contact information for both the program supplier and the consultant, MassPowerChoice, which was responsible for customer support. The site also featured easily accessible options for prospective customers to enroll and for current participants to change their program options or opt out of the program if desired.
<b>Communication vehicles/ Outreach activities</b>	
<b>Social media accounts</b>	Program updates, including a price-change notification, were posted on the City’s X, Facebook, and Instagram accounts.
<b>Municipal cable access TV</b>	Program updates, a including price-change notification, were sent to Greenfield Community Television (GCTV).
<b>Announcement to local/ regional media</b>	Program updates, including a price-change notification, were sent to the City’s media list, which includes newsletter, radio, newspaper, broadcast news channels, and internet service provider channels.
<b>Physical posting in municipal buildings</b>	Program updates, including a price-change notification, were posted on a bulletin board at the City Hall.

<p><b>Municipal departments, boards, and committees</b></p>	<p>Program updates, including price-change notifications, were sent to the City Council and Department Heads and the Greenfield School Committee.</p>
<p><b>Community organizations</b></p>	<p>Program updates, including price-change notifications, were sent to the following community organizations with a request that they share the information with their constituents: Greenfield Business Association, Franklin Regional Council of Governments, and the Franklin County Chamber.</p>
<p><b>Mailings</b></p>	<p>Throughout the year, new utility Basic Service customers were sent Opt-Out Notices informing them of the program, their upcoming automatic enrollment, and the methods for opting out or selecting an optional product.</p> <p>In December 2023, a notice of program price change and automatic enrollment renewal was sent to customers.</p>

Attachment IV.B.1.c Equitable Treatment of Customer Classes

Table IV.B.1.c Equitable Treatment of Customer Classes					
Plan Element					
Procurement of Supply (§ IV.B.2)	Product Rate Setting/Renewable Energy Content (§ IV.B.3)	Other Funding Sources/Costs (§ IV.B.4)	Customer Enrollment (§ IV.B.5)	Customer Notification (§ IV.B.6)	Ongoing Program Information (§ IV.B.7)
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Table IV.B.1.c identifies the Plan elements for which there may be variances in the treatment between customer classes or subclasses. Those variances in treatment are described below.

Medium/Large commercial and industrial customers enrolling in the Program after Program launch may be offered a market-based price rather than the contract price. Such differential treatment is equitable because these customers have more choices in the marketplace and impose greater costs on the Program than other customers when they join after Program launch.

Customers that previously opted out and later wish to re-enroll in the Program may be offered a market-based price. This differential treatment is equitable because these customers previously made a choice not to participate in the Program and as a result their load was no longer planned for by the electricity supplier.

## TOWN ELECTRICITY PROGRAM NOTIFICATION LETTER

August 31, 2023

Dear Greenfield Electricity Service Customer,

This is a notification about our City's electricity program, the **Greenfield Light & Power Program**. Through the program, you will automatically receive all of your electricity from renewable energy sources. The program offers options that let you choose where your renewable energy comes from. Please see the back of this letter for prices and other details.

**If you received this letter, you will be AUTOMATICALLY enrolled in the Greenfield Light & Power Program, unless you choose not to participate.**

**If you choose not to participate in Greenfield Light & Power, your opt-out request must be postmarked by October 3, 2023, to avoid automatic enrollment in the program.**

The Greenfield Light & Power Program is a form of group electricity purchasing known as electricity aggregation. In the program, the City uses the bulk purchasing power of the community to choose an electricity supplier.

- **If you participate**, Eversource will remain your electric utility. You will continue to receive your electric bill from them and call them if the power goes out. You will see Dynegy listed on your bill as your electricity supplier, and Eversource will use the Greenfield Light & Power price to calculate the Supply charge on your bill.
- **If you choose not to participate**, Eversource will continue to calculate the Supply charge on your bill using their Basic Service price, as they do now.

If you are eligible for a low-income rate or fuel assistance, you will continue to receive those benefits as a participant in the Greenfield Light & Power Program.

### Program benefits

**Cleaner electricity** - Your electricity will be powered completely by renewable electricity, which means it is generated from sources like the sun and the wind.

**Consumer protections** - You will receive consumer protections, such as the ability to leave the program at any time.

**Stable prices** - Your electricity supply price will remain the same and will not change until January 2024. Price stability makes the program different from Eversource's Basic Service, which you have now. Eversource's prices change every 6 months for residential and small business accounts and every 3 months for medium and large business accounts. Price stability also makes the program different from many commercial offers that you may receive by mail or by phone.

**Please note: Because Eversource's Basic Service prices change and their future prices are not known, Greenfield Light & Power cannot guarantee to provide savings when compared with Eversource.**

Program Price

**9.879 ¢/kWh**

residential and small, medium, and large business customers

Compare to Eversource's current Basic Service prices on the back. ▶

[greenfield@masspowerchoice.com](mailto:greenfield@masspowerchoice.com)

[GreenfieldLightandPower.com](http://GreenfieldLightandPower.com)

Don't want to participate?

**You don't have to. There is no penalty or fee to opt out of the program, and you may do so at any time.**

To opt out before being enrolled, do one of the following by **October 3, 2023**:

- ▶ Sign and return the enclosed postcard (must be postmarked no later than **October 3, 2023**)
- ▶ Call Customer Support at 1-844-483-5004
- ▶ Opt out online at [GreenfieldLightandPower.com](http://GreenfieldLightandPower.com).

You may also try the program and opt out at any time in the future with no penalty.

**Program options & pricing**

To choose either the Local Green option or the Budget option, please visit [GreenfieldLightandPower.com](http://GreenfieldLightandPower.com) and click “Options & Pricing,” or call customer support with Greenfield’s program consultants at **1-844-483-5004**.

The Commonwealth of Massachusetts requires that all electricity supply products include a minimum of 59.2% from renewable energy resources in 2023, including 22% from premium renewable energy projects in the New England region (MA Class I RECs). All Greenfield Light & Power Program options exceed that minimum requirement.

<p>1. If you do nothing, you will be automatically enrolled in <b>STANDARD:</b></p> <ul style="list-style-type: none"> <li>▶ 100% renewable energy, primarily from wind projects outside of New England. Includes an additional 5% from premium renewable energy projects in the New England region (MA Class I RECs), over and above the minimum 22% required by state law.</li> </ul>	<p><b>9.879 ¢/kWh*</b>                  residential, and small, medium, &amp; large business</p>
<p>2. If you want to receive 100% <b>local</b> renewable electricity, choose <b>LOCAL GREEN:</b></p> <ul style="list-style-type: none"> <li>▶ 100% renewable electricity, all from premium renewable energy projects in the New England region (MA Class I RECs).</li> </ul>	<p><b>13.281 ¢/kWh*</b>                  residential, and small, medium, &amp; large business</p>
<p>3. If you want 100% renewable electricity at the lowest program price, choose <b>BUDGET:</b></p> <ul style="list-style-type: none"> <li>▶ 100% renewable energy, primarily from wind projects outside of New England. Includes only the minimum 22% from premium renewable energy projects in the New England region (MA Class I RECs) required by state law.</li> </ul>	<p><b>9.629 ¢/kWh*</b>                  residential, and small, medium, &amp; large business</p>
<p><b>Rate term</b> Enrollment - January 2024 meter read.</p> <p><b>Exit terms</b> Leave any time. No exit charge.</p>	

<p>4. If you choose to opt out, you will remain on <b>EVERSOURCE’S BASIC SERVICE:</b></p> <ul style="list-style-type: none"> <li>▶ 59.2% renewable energy in accordance with Massachusetts minimum renewable energy requirements.</li> </ul>	<p><b>14.854 ¢/kWh</b> residential  <b>15.513 ¢/kWh</b> small business  <b>14.077 ¢/kWh</b> medium &amp; large business</p>
<p><b>Rate term</b> July 1 - December 31, 2023, for residential and small business accounts. July 1 - September 30, 2023, for medium and large business accounts. Eversource’s rates will next change on January 1, 2024, for residential and small business accounts and October 1, 2023, for medium and large business accounts.</p> <p><b>Exit terms</b> Leave any time. No exit charge. However, large C&amp;I (rates G-2, T-4, T-2, and T-5) and street lighting customers on the fixed-priced Basic Service option may receive a billing adjustment, which may be either a credit or a charge.</p>	

\* Program prices include a \$0.001/kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electricity supply agreement.

**Frequently asked questions**

**I have received this letter, and also I have recently signed a contract with an electricity supplier. What should I do?** You may have signed your contract after this mailing list was created. In that case, you must opt out if you wish to retain your current contract. If you do not opt out, your account will be enrolled in the program, which may trigger early termination fees from your electricity supplier.

**I have a tax-exempt account. How can I retain my account’s tax-exempt status?** Taxes will be billed as part of the program’s power supply charge. Customers are responsible for identifying and requesting an exemption from the collection of any tax by providing appropriate tax-exemption documentation to Dynegy. Visit [GreenfieldLightandPower.com](http://GreenfieldLightandPower.com) for information.

If you have any questions, please do not hesitate to contact customer support at [GreenfieldLightandPower.com](http://GreenfieldLightandPower.com) or **1-844-483-5004**. Our consultants will be happy to help you.

# Attachment IV.B.6.b Representative Notification of Product Change

## A NOTIFICATION FROM THE CITY OF GREENFIELD ABOUT A CHANGE IN YOUR ELECTRICITY SUPPLY PRICE

December 1, 2023

Dear Greenfield Electricity Customer,

**This notice contains important information about a price change on your Eversource electric bill.**

Your electricity account is enrolled in the City's electricity program, Greenfield Light & Power, in the **Standard** option. Participating in Greenfield Light & Power gives you a Greenfield price for the Supply portion of your Eversource electric bill, which is the part of the bill where you pay for the electricity you use. In addition, through the program you are receiving 100% of your electricity from renewable sources.

The electricity supply contract that guarantees our community's electricity prices will end in January, and a new, 24-month contract will go into effect. **The new contract will bring two changes:**

- 1. **New prices** - The current contract was signed in 2020 and has kept our prices low. However, electricity supply prices have risen significantly because of volatility in global energy markets. Greenfield Light & Power prices will move to market levels when the new contract takes effect.

▶ **Your new price for the Supply portion of your Eversource electric bill: 13.498 ¢/kWh**  
 The new price is fixed for 24 months, from January 2024 - January 2026.

Your new price will be higher than your current price, but it is **lower** than Eversource's winter 2024 residential Basic Service price of 15.845 ¢/kWh, which will go into effect on January 1. *Please note that because Eversource's prices change and their future prices are not known, future savings compared with Eversource's prices cannot be guaranteed.*

- 2. **More support for renewable energy in New England** - Through the program, you already receive 100% of your electricity from a variety of renewable sources. As part of that, you receive the minimum from new renewable resources in the New England region required by law, plus an additional 5%. With the new contract, **that additional amount will increase to 10%.**

### Your options:

- ▶ **Take no action and remain in Greenfield Light & Power.** If you wish to continue participating in Greenfield Light & Power in the Standard option, no action is required. Your enrollment will renew automatically at the new price in January 2024. You will first see the new price on your Eversource electric bill in February 2024.
- ▶ **Change to another option in the program.** You may opt up to the **Local Green** option for 100% renewable electricity, *all* from new renewable resources in the New England region, or opt down to the **Budget** option to receive 100% renewable electricity at the lowest price available in the program.
- ▶ **Leave the program with no penalty or fee.** You are free to either return to Eversource's Basic Service pricing or sign your own contract with an electricity supplier.

To make a change, visit [GreenfieldLightAndPower.com](http://GreenfieldLightAndPower.com) or contact customer support with Greenfield's program consultants at 1-844-483-5004. Please have your Eversource electricity account number ready when you call.

*(More information on the back. ▶)*

## Your options in Greenfield Light & Power

All Greenfield Light & Power options provide 100% of your electricity from renewable sources. The options differ in the amount of electricity purchased from new renewable resources in the New England region (MA Class I RECs). Buying from new renewable resources in our region helps to build demand for more local renewable energy and supports the jobs that go with it.

The chart below can help you decide whether to remain enrolled in your current option, change to another option in the program, or opt out and return to Eversource's Basic Service. To make a change, visit [GreenfieldLightAndPower.com](http://GreenfieldLightAndPower.com) or contact customer support with Greenfield's program consultants at 1-844-483-5004.

Greenfield Light & Power options:		You are enrolled here ▼		If you do not wish to participate:

Exit terms	Leave any time. No exit charge.	Leave any time. No exit charge.	Leave any time. No exit charge.	Leave any time. No exit charge. However, large C&I (rates G-3, T-2, and WR) and street lighting customers on the fixed-price Basic Service option may receive a billing adjustment, which may be either a credit or a charge.

\* Prices include a \$0.001/kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electricity supply agreement.

\*\* The Local Green option is a 100% MA Class I REC offering, which means it includes the minimum amount of MA Class I RECs required by law each year plus the additional amount needed to reach 100%. Greenfield's electricity supplier must also purchase other renewable energy to meet state requirements. As a result, the total of the renewable content for the Local Green option exceeds 100%. The Commonwealth of Massachusetts requires that all electricity supply products include a minimum from renewable or clean energy resources. All Greenfield Light & Power options exceed the minimum requirement.

**Tax-exempt account holders take note:** You must provide appropriate tax-exemption documentation to First Point Power in order to maintain tax-exempt status. Visit [GreenfieldLightAndPower.com](http://GreenfieldLightAndPower.com) for information on where to submit your documentation.

## A NOTIFICATION FROM THE CITY OF GREENFIELD ABOUT A CHANGE IN YOUR ELECTRICITY SUPPLY PRICE

December 1, 2023

Dear Greenfield Electricity Customer,

**This notice contains important information about a price change on your Eversource electric bill.**

Your electricity account is enrolled in the City's electricity program, Greenfield Light & Power, in the **Budget** option. Participating in Greenfield Light & Power gives you a Greenfield price for the Supply portion of your Eversource electric bill, which is the part of the bill where you pay for the electricity you use. In addition, through the program you are receiving 100% of your electricity from renewable sources.

The electricity supply contract that guarantees our community's electricity prices will end in January, and a new, 24-month contract will go into effect. **The new contract will bring new prices.**

# A NOTIFICATION FROM THE CITY OF GREENFIELD ABOUT A CHANGE IN YOUR ELECTRICITY SUPPLY PRICE

December 1, 2023

Dear Greenfield Electricity Customer,

**This notice contains important information about a price change on your Eversource electric bill.**

Your electricity account is enrolled in the City's electricity program, Greenfield Light & Power, in the **Local Green** option. Participating in Greenfield Light & Power gives you a Greenfield price for the Supply portion of your Eversource electric bill, which is the part of the bill where you pay for the electricity you use. In addition, through the program you are receiving 100% of your electricity from new renewable resources in the New England region.

The electricity supply contract that guarantees our community's electricity prices will end in January, and a new, 24-month contract will go into effect. **The new contract will bring new prices.**

The current contract was signed in 2020 and has kept our prices low. However, electricity supply prices have risen significantly since then because of volatility in global energy markets. Greenfield Light & Power prices will move to market levels when the new contract takes effect.

▶ **Your new price for the Supply portion of your Eversource electric bill: 15.717 ¢/kWh**  
 The new price is fixed for 24 months, from January 2024 - January 2026.

Your new price will be higher than your current price, but it is **lower** than Eversource's winter 2024 residential Basic Service price of 15.845 ¢/kWh, which will go into effect on January 1. *Please note that because Eversource's prices change and their future prices are not known, future savings compared with Eversource's prices cannot be guaranteed.*

### Your options:

- ▶ **Take no action and remain in Greenfield Light & Power.** If you wish to continue participating in Greenfield Light & Power in the Local Green option, no action is required. Your enrollment will renew automatically at the new price in January 2024. You will first see the new price on your Eversource electric bill in February 2024.
- ▶ **Change to another option in the program.** You may opt down to the **Standard** option or the **Budget** option to continue receiving 100% of your electricity from renewable sources, but receive it from a mix of renewable resources instead of all from new resources within the New England region.
- ▶ **Leave the program with no penalty or fee.** You are free to either return to Eversource's Basic Service pricing or sign your own contract with an electricity supplier.

To make a change, visit [GreenfieldLightAndPower.com](http://GreenfieldLightAndPower.com) or contact customer support with Greenfield's program consultants at 1-844-483-5004. Please have your Eversource electricity account number ready when you call.

*(More information on the back. ▶)*

## Your options in Greenfield Light & Power

All Greenfield Light & Power options provide 100% of your electricity from renewable sources. The options differ in the amount of electricity purchased from new renewable resources in the New England region (MA Class I RECs). Buying from new renewable resources in our region helps to build demand for more local renewable energy and supports the jobs that go with it.

The chart below can help you decide whether to remain enrolled in your current option, change to another option in the program, or opt out and return to Eversource's Basic Service. To make a change, visit [GreenfieldLightAndPower.com](http://GreenfieldLightAndPower.com) or contact customer support with Greenfield's program consultants at 1-844-483-5004.

Greenfield Light & Power options:				You are enrolled here ▼	If you do not wish to participate:
	Greenfield Budget 100% renewable electricity	Greenfield Standard 100% renewable electricity with 10% additional from the New England region	Greenfield Local Green 100% renewable electricity, all from the New England region**		Eversource's Basic Service (if you opt out)
<b>Price</b>	<b>13.183 ¢/kWh*</b>	<b>13.498 ¢/kWh*</b>	<b>15.717 ¢/kWh*</b>		<b>15.845 ¢/kWh</b> - Residential <b>16.214 ¢/kWh</b> - Small Business <b>17.381 ¢/kWh</b> - Large Business
<b>Price period</b>	January 2024 - January 2026	January 2024 - January 2026	January 2024 - January 2026		January 1, 2024 - July 31, 2024, residential & small business. January 1, 2024 - April 30, 2024, large business.
<b>Renewable energy **</b>					
From new resources in the New England region (MA Class I RECs), <b>added by Greenfield</b>	-	10% - 2024 10% - 2025	76% - 2024 73% - 2025		-
From wind projects outside of New England, <b>added by Greenfield</b>	38% - 2024 37% - 2025	28% - 2024 27% - 2025	-		-

<b>Exit terms</b>	Leave any time. No exit charge.	Leave any time. No exit charge.	Leave any time. No exit charge.		Leave any time. No exit charge. However, large C&I (rates G-3, T-2, and WR) and street lighting customers on the fixed-price Basic Service option may receive a billing adjustment, which may be either a credit or a charge.

\* Prices include a \$0.001/kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electricity supply agreement.

\*\* The Local Green option is a 100% MA Class I REC offering, which means it includes the minimum amount of MA Class I RECs required by law each year plus the additional amount needed to reach 100%. Greenfield's electricity supplier must also purchase other renewable energy to meet state requirements. As a result, the total of the renewable content for the Local Green option exceeds 100%. The Commonwealth of Massachusetts requires that all electricity supply products include a minimum from renewable or clean energy resources. All Greenfield Light & Power options exceed the minimum requirement.

**Tax-exempt account holders take note:** You must provide appropriate tax-exemption documentation to First Point Power in order to maintain tax-exempt status. Visit [GreenfieldLightAndPower.com](http://GreenfieldLightAndPower.com) for information on where to submit your documentation.

## Attachment IV.B.7.b.ii Annual Product Rate Component Information

Table IV.B.7.b.ii – Annual Product Rate Component Information	
Rate Component	Revenue (in \$)
Supply and Renewable Content	5,219,291
Consultant Services	53,386

### Descriptions:

#### Supply and Renewable Content

The Supply and Renewable Content rate component covers the cost of the products and services necessary to provide firm power supply to program participants, including:

- electrical energy;
- capacity;
- reserves;
- ancillary services;
- transmission services;
- the cost of distribution system losses; and
- congestion management.

This rate component also covers the cost of Renewable Energy Certificates (RECs), including:

- RECs needed to meet the requirements of state law; and
- additional RECs above state requirements as specified by the City.

#### Consultant Services

The Consultant Services rate component covers the costs of administering the program, including:

- representing the City before the Department of Public Utilities, including securing regulatory approvals and maintaining regulatory compliance;
- conducting procurements for electricity supply as needed;
- providing customer support by telephone and email;
- providing public education, including through in-person events, printed communications (signs, banners, brochures), electronic communications (video, slides), and social media;
- developing and maintaining a comprehensive, branded program website, including ongoing updates to ensure regulatory compliance;

- receiving customer requests to enroll, change program options, or opt-out; forwarding those requests to the electricity supplier; and monitoring implementation;
- overseeing periodic automatic-enrollment mailings to new customers;
- monitoring electricity supplier performance;
- monitoring electricity market and regulatory developments; and
- preparing reports to the Department of Public Utilities and the City.
