Notwithstanding the foregoing, nothing herein is intended to create any rights under this Agreement in any third party.

6.4 SPECIFIC PERFORMANCE

Notwithstanding any other provision herein, the Parties agree that if the Municipality, after receiving a default notice, and after the opportunity to cure that default within the cure periods described in section 6.2(a), fails to cure the default, Competitive Supplier shall be entitled to seek specific performance of this Agreement, and this shall be Competitive Supplier's sole and exclusive remedy for any default of the Municipality. The Parties acknowledge and agree that because monetary damages are not available to Competitive Supplier under this Agreement, there is no remedy at law adequate to compensate Competitive Supplier for a material default of the Municipality under section 6.2(a), and further agree that Competitive Supplier may suffer, in the event of such a default, irreparable harm.

6.5 EXTENSION

This Agreement may be extended beyond the expiration date of the Term by written, signed amendment to this Agreement. Any new pricing terms shall be included in such amendment. Upon any such extension, this Agreement shall continue to be in effect throughout the extension period set forth in the amendment, and all provisions of this Agreement, as amended by the Amendment, shall retain the same force and effect as before the extension, unless earlier terminated by either Party pursuant to the provisions of Article 6.2.

ARTICLE 7 CONTINUING COVENANTS

The Competitive Supplier agrees and covenants to perform each of the following additional obligations during the Term.

7.1 STANDARDS OF MANAGEMENT AND OPERATIONS

In performing its obligations hereunder, during the Term, the Competitive Supplier shall prudently and efficiently carry out its obligations under this Agreement; employ an adequate number of competently trained and experienced personnel to fulfill its responsibilities; deliver or arrange to deliver a safe and reliable supply of such amounts of electricity to the Point of Delivery as are required under this Agreement; comply with all applicable Governmental Rules and industry standards and practices for the supply of electricity to Participating Consumers; and, at all times with respect to Participating Consumers, implement the good customer service policies and practices as defined in Article 7.2, and employ all Commercially Reasonable efforts, skills, practices, systems and methods in performance of its obligations.

7.2 CUSTOMER SERVICE POLICIES AND PRACTICES

The Competitive Supplier agrees to provide, or cause to be provided, Customer Service to Participating Customers in accordance with Policies and Practices as described more fully in Exhibit D. The Municipality reserves the right to post Program-related information on the Municipality's website which will be available to Participating Consumers for general information, product and service information, and other purposes.

7.3 RESPONDING TO REQUESTS FOR INFORMATION

The Competitive Supplier shall, during normal business hours (as set forth in Exhibit D), respond promptly and without charge to reasonable requests of the Municipality for information or explanation regarding the matters covered by this Agreement and the supply of electricity to Participating Consumers. If such matter pertains to a particular consumer, and consumer consent is required by law, the Municipality will secure such consent before requesting any information under this section. Competitive Supplier agrees to designate a service representative or representatives (the "Service Contacts") who shall be available for these purposes, and shall identify the office address and telephone number of such representative(s). Such Service Contacts shall be initially identified in Exhibit E. The Competitive Supplier shall update the names of such Service Contacts as necessary during the Term. Whenever necessary to comply with this Article, the Service Contacts shall call upon other employees or consultants of the Competitive Supplier to obtain such information or explanation as may be reasonably requested. Nothing in this Article shall be interpreted as limiting the obligation of the Competitive Supplier to respond to complaints or inquiries from Participating Consumers, or to comply with any regulation or requirement of the Department, Government Authority or Attorney General regarding customer service.

7.4 ARRANGING FOR FIRM ALL-REQUIREMENTS POWER SUPPLY

Competitive Supplier shall make all appropriate arrangements with the ISO-NE, any relevant regional transmission organization, wholesale suppliers or any other entity to ensure an uninterrupted delivery of reliable, safe, and firm All-Requirements Power Supply (free and clear of any claims, liens and encumbrances) to the Point of Delivery, and shall make all appropriate arrangements and Commercially Reasonable efforts to cause the LDC to deliver such electricity

(free and clear of any claims, liens and encumbrances) to Participating Consumers at the Point of Sale. In the event the Competitive Supplier is unable to deliver sufficient electricity to the Point of Delivery to serve Participating Consumers, the Competitive Supplier shall promptly make all arrangements and Commercially Reasonable efforts for an alternative supply as may be necessary to continue to serve Participating Consumers under the terms of this Agreement without interruption, and shall bear any costs it may incur in carrying out these obligations. Competitive Supplier shall not be responsible to the Municipality or any Participating Consumers in the event that, through no fault of Competitive Supplier, the LDC disconnects, curtails or reduces service to Participating Consumers.

7.5 NON-DISCRIMINATORY PROVISION OF SERVICE

Competitive Supplier shall supply electric energy to all Participating Consumers on a non-discriminatory basis; provided, however, that the prices and other terms of such supply may vary in accordance with Article 5 or the rate classifications as appear in Exhibit A. Competitive Supplier's prices, terms and conditions shall be in accordance with the Massachusetts General Laws, the rules and regulations of the Department and any other Governmental Authority having jurisdiction, and other applicable Governmental Rules. The Competitive Supplier may not deny service to a Participating Consumer for failure to pay the bills of a third party, including the LDC, any electric company (whether engaged in the distribution, transmission, supply, or generation of electricity) or of any other aggregator, marketer or broker of electricity, but may to the extent allowed by law and regulation, reasonably deny or reasonably condition new service, or terminate existing service, based upon any Participating Consumer's failure to pay bills from the Competitive Supplier. Provision of electric energy supply to Participating Consumers shall be subject to Competitive Supplier's reasonable credit policies described in Exhibit A, to the extent permitted by law and regulation.

7.6 APPROVAL OF GENERAL COMMUNICATIONS

Competitive Supplier may only communicate with Participating Consumers and/or use the lists of Eligible Consumers/Participating Consumers to send Department-approved educational materials, Opt-Out Notices, or other communications essential to the operation of the Program. Such lists may not be used by Competitive Supplier to market any additional products or services to Eligible Consumers or Participating Consumers. Competitive Supplier shall cooperate with and assist the Municipality in the drafting and sending of messages and information to Eligible Consumers concerning the Program or any matter arising under or related to this Agreement or the Program. Competitive Supplier shall, prior to sending any direct mail, advertising, solicitation, bill insert, electronic mail, or other similar written or electronic communication (collectively, "General Communications") to Participating Consumers (but excluding individually drafted or tailored communications responding to a specific complaint or communication of an individual consumer), provide a copy of such General Communication to the Municipality for its review (for consistency with the Municipality's purposes and goals) and

approval. The Municipality shall have the right to disapprove such General Communications and suggest revisions if it finds the communication inconsistent with the purposes and goals of the Municipality, factually inaccurate, not essential to the operation of the Program, or likely to mislead provided, however, that: (i) the communication shall be deemed approved if the Municipality fails to respond within ten (10) Business Days, and (ii) no approval shall be necessary for any communication (a) regarding any emergency situation involving any risk to the public health, safety or welfare; (b) that has been approved by the Department or the DOER; or (c) is in the nature of routine monthly or periodic bills, or collection notices, except that any bill insert or message included at the bottom of such bill not within the scope of (a) or (b) above shall require advanced review and approval by the Municipality; and (iii) no approval or lack of approval shall relieve the Competitive Supplier of its obligations and responsibility for its actions and omissions under this Agreement, or other than as set forth in sub-clause 'i' of this Section 7.6, result in a waiver of any rights, remedies or defenses of the Municipality. The Municipality may reject or exclude any proposed General Communication that, in its reasonable judgment, is contrary to the interests and objectives of the Program or the Municipality.

7.7 PARTICIPATING CONSUMER LIST

To the extent not prohibited by any Governmental Rule, Competitive Supplier shall, upon request of the Municipality, provide a list of the Participating Consumers being served by the Competitive Supplier, including such reasonable identifying and consumption information as the Municipality may also request, to the extent such information is available to Competitive Supplier. Competitive Supplier shall provide such Participating Consumer lists in an electronic format reasonably acceptable to both Parties and with no more frequency than once a month.

7.8 COMPLIANCE WITH LAWS

The Parties shall promptly and fully comply with all existing and future Governmental Rules of all Governmental Authorities having jurisdiction over the activities covered by this Agreement.

7.9 CONSENT

Whenever performance of an obligation of any Party hereto requires the consent or approval of any Governmental Authority, such Party shall make all Commercially Reasonable efforts to obtain such consent or approval. In the event the Competitive Supplier reasonably requests the Municipality's assistance in obtaining such consent or approval and the Municipality anticipates that it will incur costs in fulfilling the Competitive Supplier's request, it shall give the Competitive Supplier an estimate of such costs. Upon receiving the estimate, Competitive Supplier shall determine if it will continue to request the Municipality's assistance, and if so, the Competitive Supplier shall reimburse the Municipality for all costs reasonably incurred by the Municipality in connection with such assistance.

The parties understand that these costs will be collected by the LDC in the same manner that such local transmission and distribution costs are collected from Basic Service customers.

8.4.4 Taxes

All sales, gross receipts, excise or similar taxes imposed with respect to the sale or consumption of All-Requirements Power Supply shall be included on the Participating Consumer's bill as part of the Program's supply charge and shall be remitted to the appropriate taxing authority by Competitive Supplier. 14.1 INDEMNIFICATION BY THE COMPETITIVE SUPPLIER

Competitive Supplier shall indemnify, defend and hold harmless the Municipality and its officers, employees, officials, consultants, representatives and independent contractors (the "Indemnified Parties"), from and against any and all costs, liabilities, losses, judgments, damages, and expenses (including reasonable attorney's fees), arising out of third-party claims, demands, causes of action, suits or other proceedings and incurred by, on behalf of or involving the Indemnified Parties to the extent such claims, demands, causes of action, suits or other proceedings arise from or in connection with (i) any material breach by Competitive Supplier of its obligations, covenants, representations or warranties contained in this Agreement, or (ii) Competitive Supplier's actions or omissions in connection with its performance of this

2. Procurement of Supply – Table IV.B.2 identifies: (1) the actions the City expects to take, upon Department approval of the Plan, to procure supply for the Program; and (2) the expected timeline for each action, identified as the number of days after Department approval, based on the assumption that the Department approves the Plan on Day 0.

Table IV.B.2 - Procurement of Supply	
Procurement Steps	Expected Timeline
Notify EDC of Department Approval	Day 1
File Updated Procurement Timeline with EDC	Day 14
Issue RFQs/RFPs	Day 30
Evaluate/Select Bids	Day 60
Negotiate/Execute Contracts	Day 60

3. Product Information - Table IV.B.3 identifies, for each Product and where known, (1) the components of the rates that will be charged to Participants, and (2) the renewable energy content, including the types of renewable energy resources that comprise the voluntary component. All funds collected through rates will be used specifically for the benefit of the Program.

The City has not yet determined: (1) the value of the rate components of each Product or whether to include a rate component for City or other Program-related Services; or (2) the level and type of renewable energy content in the Standard Green and Green Plus Products. The City will make these determinations after receiving price bids and in consideration of both price and environmental benefit.

The City may solicit price bids by customer class and prices may differ accordingly. Such differential treatment is equitable because it will be based on the cost to serve each customer class.

Medium/Large commercial and industrial customers enrolling in the Program after Program launch may be charged a market-based price rather than the contract price. Such differential treatment is equitable because these customers have more choices in the marketplace and impose greater costs on the Program than other customers when they join after Program launch.

Customers that previously opted out and later wish to re-enroll in the Program may be offered a market-based price. This differential treatment is equitable because these customers previously made a choice not to participate in the Program and as a result their load was no longer planned for by the Program Supplier.

The Plan addresses how the City will update this table in Section IV.B.7 (Ongoing Program Information), below.

4. Other Funding Sources/Other Costs to Participants

The City has not identified other funding sources. Participants will incur no costs other than those they incur through Product rates.

5. Customer Enrollment

a. Initial Enrollment

Prior to enrollment, the City will send an Opt-Out Notice to Auto-Enroll Customers, informing them that they will be automatically enrolled in the Program unless they take the action(s) specified in the Opt-Out Notice. The City will provide customers with at least 30 calendar days (plus six days to account for delivery) to opt-out of the Program. After that time, the City will enroll Auto-Enroll Customers in accordance with the requirements of the Electric Distribution Company. Auto-Enroll Customers that do not opt out will be enrolled in the Default Product, unless they notify the City that they seek to receive an Opt-In Product.

The City recognizes that, if it does not begin the initial enrollment of Participants within two years of Department approval, the Department will deem the Program to be terminated. The

City further recognizes that, if it seeks to reinstate its Program at a later date, it must comply with the procedural requirements set forth in the Guidelines, Section III.

b. Ongoing Enrollment

Automatic Enrollment: On a periodic basis, the City will automatically enroll New Auto-Enroll Customers, subject to the opt-out provisions for initial enrollments described above.

Voluntary Enrollment: Electric Customers may voluntarily enroll in the Program by any of the following methods: 1) calling the Program's toll-free number; 2) submitting a form on the Program website; or 3) calling the Program Supplier's toll-free number.

c. Opt-In Product Enrollment

Participants may enroll in an Opt-In Product by any of the following methods: 1) calling the Program's toll-free number; 2) submitting a form on the Program website; or 3) calling the Program Supplier's toll-free number.

The City will notify Participants enrolled in an Opt-In Product prior to any change in the Product's price or renewable energy content. At the commencement of new price/renewable energy content, Participants will continue to be enrolled in the Program, and will continue to receive their current Product, subject to the new price and renewable energy content, unless the Participant informs the City otherwise.

A Participant enrolled in an Opt-In Product that is not being continued must select one of the other Products being offered. If the Participant does not make a selection, the Participant will be enrolled in the Default Product.

6. Customer Notifications

a. Opt-Out Notice

The City will deliver an Opt-Out Notice to all Auto-Enroll Customers at least 36 calendar days prior to enrollment. The Opt-Out Notice will inform customers (1) that they are to be automatically enrolled in the Program, (2) that they have the right to opt out of the Program without penalty, and (3) of the actions they must take to opt-out. The Notice will include Product information related to price, term, and renewable energy content, and will identify the actions that a customer must take to select an Opt-In Product. Finally, the Notice will include information on the Basic Service rate, including how to access it, and the fact that it is available to them without penalty. Attachment 1 includes a representative form of the City's proposed Opt-Out Notice.

The City will (1) send the Opt-Out Notices in a clearly marked municipal envelope that identifies it contains important information regarding participation, and (2) include a self-addressed, postage-paid envelope for the opt-out reply card.

b. Notification of Product Change

The City will notify Participants of changes in price or renewable energy content of any of its Products. The notification will identify both the Product’s existing and new price and renewable energy content, and will identify the actions Participants must take if they no longer seek to purchase the existing Product.

c. Other Notifications

i. General Program Information

Upon approval of its Plan, the City may deliver information and educational materials regarding its Program to each Electric Customer within its boundary. The City may request, no more than quarterly, that the EDC provide the information (customer name, mailing address (and service address, if different), and rate class) necessary to facilitate such notifications. The City will not share this information with Program Suppliers. In the event that the City sends notices or educational materials to customers enrolled to receive service from a Competitive Supplier, such notification or educational materials will inform those customers that, if they enroll in the Program, they may incur an early cancellation fee from their Competitive Supplier, and that they should check with their Competitive Supplier on this matter before enrolling in the Program.

ii. Program Supplier Communications

Upon approval from the City, an active Program Supplier may communicate with Participants regarding the Program and, if applicable, energy-related products or services.
